TECH SKILLS & QUALIFICATIONS

React, Javascript, HTML, CSS, Git, GitHub, Node.JS, Express, MongoDB, Mongoose, Vercel

PROJECTS

- **Expense Tracker |** [GitHub](#)
  Developed a comprehensive expense tracker website utilizing React, HTML, CSS, JavaScript, Node.js, and Express. Enabled users to effortlessly track and manage their financial data through informative graphs. Implemented robust user authentication and authorization to ensure data security.

- **CodeSquad Comics |** [GitHub](#)
  Developed a website as part of the Code Squad final project. Key features encompass authentication for secure access, user registration, and login functionality. Users can create, update, and delete comics within the fully responsive website. Each comic card connects to a dedicated details page, leveraging EJS templates to fetch and display information stored in a MongoDB database.

WORK EXPERIENCE

- **Managing Lawyer at Arisoy Law Firm**, Istanbul, Turkey   January 2019 - January 2022
  In my role as a managing lawyer, I supervised and advised a team of 5-7 lawyers, while delegating tasks to staff members from other departments. Additionally, I maintained my lawyer responsibilities, offering counsel and drafting necessary documentation for cases. Through effective management and collaboration, I contributed to the organization's success and productivity.

- **Lawyer, Arisoy Law Firm**, Istanbul, Turkey   May 2015 - January 2019
- **Lawyer, Keskin Law Firm**, Istanbul, Turkey   October 2014 - May 2015
  As a lawyer, I collaborated with clients to develop effective case strategies and prepared all necessary documentation for court hearings. I attended hearings related to shareholder and company disputes and successfully managed a caseload of over 50 clients. I negotiated and mediated meetings between clients, facilitated merger and acquisition work, and drafted contract agreements and petitions.
